As an experienced end-to-end e-learning developer, I am now looking for the next stage in my career. With 5 years' experience, including 1 year in professional services at KPMG, I can bring my suite of skills and drive.

Key Skills

- Adobe Captivate
- Articulate Storyline
- Evolve
- Camtasia
- Adobe Suite
- Instructional Design
- Quality Assurance
- Vyond (GoAnimate)
- Video production
- Project delivery
- Liaising with SME's
- Communicating with stakeholders
- Presenting ideas
- Mentoring colleagues

Career Summary

e-learning Developer, KPMG, August 2019 – Present

- Developing e-learning with Captivate, Storyline & Evolve
- Working closely with instructional designers
- Meeting accessibility needs for e-learning
- Trouble shooting builds
- Mentoring colleagues with authoring tools
- Leading projects and managing multiple developers
- Presenting work to clients and SMEs
- Learning new tools like Evolve and getting exposure to Gomo

e-learning Developer, Babcock International, July 2015 – July 2019

As an e-learning developer, I was working on a range of projects in the MoD sector. I started this role with no knowledge of e-learning development, but quickly went from a beginner developer, to managing and running my own projects.

Role Responsibilities:

- Developing e-learning modules with Captivate & Storyline
- Conducting a needs analysis for each project
- Addressing key learning points
- Communicating regularly with project stakeholders
- Holding milestone meetings and ensuring projects were on track
- Meeting SCORM compliance for the Moodle LMS
- Uploading SCORM content to Moodle
- Meeting the needs of the Royal Navy's infrastructure e.g. HTML5, Moodle etc.

- Training colleagues in software like Adobe Captivate and Articulate Storyline
- Creating videos for e-learning modules and seeing the production process through from pre-production to post.
- Being involved with cutting-edge technology and seeing projects from start to finish.

Career Break, December 2014 – June 2015

After working in several roles, with no real direction, I decided to take a career break. I realised I wanted to do something, which was creative and involved in education. From this I discovered e-learning and I taught myself how to use software like Adobe Captivate and Articulate Storyline.

Education

2:2 BA (hons) in Media Production and Music Technology – University of Chichester – 2010
